

We appreciate your patience and support.

- During a typical weekend, an average of one teenager dies each hour in a car crash. Nearly 50 percent of those crashes involve alcohol.

The facts tell a deadly tale:

- Every 33 minutes, someone in America dies in an alcohol-related crash — in 1998, nearly 16,000 were killed.
- Every two minutes, someone in America is injured in an alcohol-related crash.
- Alcohol-involved traffic crashes annually result in more than \$45 billion in economic costs.

We know that it's inconvenient to be stopped, but the time spent at this checkpoint is time spent ensuring your safety.

DON'T LOSE IT!

DON'T LOSE IT!

We know that it's inconvenient to be stopped, but the time spent at this checkpoint is time spent ensuring your safety.

At some point in their lives, three out of every 10 Americans will be involved in an alcohol-related crash. Last year alone, alcohol contributed to 38 percent of fatal crashes nationwide. That is why we are conducting this checkpoint as part of the ***You Drink & Drive. You Lose.*** national campaign.
